

## **Applecross Senior High School Career Expo 2009**

During **National Career Week**, Applecross Senior High School held their own Career Expo on Wednesday the 22<sup>nd</sup> of May. We had 22 exhibitors from a variety of training and occupational areas. Over five hundred students from years 10 to 12 came and viewed the exhibits on offer.

The *Australian Defence Forces* stand was particularly popular with the boys, but the *Curtin University* stand was huge and had a lot of interest as well.

The *Australian Technical College* had an interactive brick laying section where they were demonstrating and teaching the Applecross SHS students how to build a wall.

All in all it was a most successful afternoon.

Feedback from staff and students who attended the Expo was very positive. The staff were impressed with the exhibits and the students were very well behaved.

Congratulations to Robert Holmes, Year 10, who won the major prize of a huge box of chocolates after completing the Career Expo survey.

Finally, a big thank you to the Year 11 Career and Enterprise students who worked so well during the planning and implementation of the Expo.

*Mrs Glyn Barber*
