What is your event story?	
<p>Kurri Kurri Public School will be holding its third annual Careers Fun Day on Friday, 21st May, 2010 for 650 students K-6. Building career aspirations and developing understandings about the world of work has been a strong focus for the school. The day will be opened by local member, Joel Fitzgibbon. Students will dress up in workwear and there will be a workwear fashion parade. Many shopfronts will be set up by local businesses and employers. Children will rotate around these activities. Many parents will be talking / demonstrating to class groups. A careers mural was painted in the quadrangle and a "Spot the job" competition has been running and winners announced. This is a fantastic day, which provides lots of stimulus for family discussion about careers and career pathways.</p>
