NATIONAL CAREER DEVELOPMENT WEEK COMES TO ESHS

Plans are under way for ESHS students to participate in a number of career development activities in National Career Development Week from the 18th - 22nd May this term.

In conjunction with the Esperance Local Community Partnership, a Careers Conference is planned for all year 10 students across the district.

There will also be a range of activities taking place at ESHS itself, including library displays, a focus on careers in subject areas and a number of educative activities taking place in informal ways.

An ESHS Career Development brochure will be launched in National Career Development Week in May. The brochure has been funded by the Esperance Local Community Partnership and the federal Department of Education, Employment and Workplace Relations under the Career Lighthouse Project.

The brochure is aimed at providing information to parents about career development activities at the school.
