Q1: What is your current job/career?

Post Production Co-ordinator/Editor

Q2: Why did you choose your job/career? - did you have a plan? - what resources if any did you use?

I have been interested in the production industry since I was about 15 and got my first dv camera. I went straight into uni after high school and did a bachelor in media course, followed by a year working at AFTRS and then further study. I found my current job through searching on SEEK.

Q3: How would you like your job/career to develop and what do you need to do to make the change?

I would like to start working on bigger projects and hopefully develop some of my own projects as well.

Q4: When you were a child, what did you want to be when you grew up?

When I was a child I wanted first to be a vet and then a lawyer and also dabbled with being a psychologist for a short time when I was really young

Q5: What challenges do you need to overcome to "get the life you love"?

Can't foresee any but sure some challenges will come up in the not too distant future.
