

Vocational Education Teacher (High School) – Sophia, (Age over 50)

Q1: What is your current job/career?

Teaching Vocational Education at High School

Q2: Why did you choose your job/career? - did you have a plan? - what resources if any did you use?

I used to tutor at school whilst my kids were there, however after they left school they told me it was my turn to go to uni and to keep on helping kids, so I applied and nearly fainted when I actually got in..

Q3: How would you like your job/career to develop and what do you need to do to make the change?

Expand what I can do for students in high school. To do this in a true practical way I need more time to work on programs in my speciality area, Voc Ed.

Q4: When you were a child, what did you want to be when you grew up?

A Soldier, a teacher and a nurse

Q5: What challenges do you need to overcome to "get the life you love"?

Time, there just isn't enough to make the difference that is needed. I get tied up with all the little issues that won't allow one to spend the time required to really do some good.
